

Stock up on shortbread this Easter!

Easter, like Christmas is an ideal time to share shortbread with friends and family. Great with a hot cuppa are Butterfingers shortbreads, which are available nationally through local independent supermarkets.

Varities of Butterfingers shortbreads include 175g packs of Pure butter, Choc Chip, Macadamia and Ginger, all made in Australia following a Scottish family recipe.

First produced 24 years ago, Butterfingers shortbreads are made with natural Australian ingedients of butter, flour and sugar complemented by Australian macadamia nuts, Australian ginger and locally produced dark chocolate chips. No preservatives, artificial additives or colourings are included.

Butterfingers shortbreads are made in the Old Colonial Cookie Company, which is a 100% Australian family-owned company. The company has achieved export success by distributing the range in Japan, Hong Kong, New Zealand, Singapore and Canada, and the United States.
